BRAND PHILOSOPHY

OUR MISSION

We offer a range of tailored recipes across each life stage to support a long and healthy life for every dog.

OUR PURPOSE

Our range of high quality tailored recipes keeps your dog in optimal body condition to support lifelong wellbeing.

LIFELONG WELLBEING

ESTD
1969

EUKANUBA has over 50 years of expertise in tailored life stage nutrition. We are passionate about keeping your faithful companion in the best possible shape. Our recipes support optimal body condition by providing nutritional wellbeing.

10 REASONS TO FEED EUKANUBA

ESTD
1969

A LEADER SINCE 1969

EUKANUBA has been a leader in tailored nutrition since 1969.

RECOMMENDED BY BREED EXPERTS

Our EUKANUBA recipes are often recommended by vets and top breeders.

TAILORED TO DOG SIZE

At EUKANUBA we understand that different size dogs have different needs, which is why our formulas are tailored to all dog sizes.

HIGH LEVEL OF ANIMAL PROTEIN FOR LEAN MUSCLES

A cornerstone of our nutritional philosophy is that dogs evolved from carnivores and should be fed accordingly. That's why we use only high-quality animal protein as the principal source of protein in EUKANUBA kibble.

120
QUALITY
CHECKS

HIGH-QUALITY INGREDIENTS

From start to finish, food quality and safety is an integral part of our mission. We only use high quality ingredients and carry out more than 120 quality checks.

100% COMPLETE AND BALANCED FOR ADVANCED NUTRITION

With no flavourings, colourings or GMO's

CARE FOR TEETH AND GUMS

With Dentadefense special minerals proven to help reduce tartar build up by up to 80%.

HEALTHY SKIN & SHINY COAT

Including high quality animal proteins and omega 6 & 3 fats, for a glossy coat and healthy skin.

KIND TO TUMMIES

With FOS & MOS prebiotics and beet pulp fibres to support healthy digestion and promote good stools.

PLANET FRIENDLY FOOD:

At least 25% of our factory's energy is generated from our wind turbine

PROUDLY MADE BY EXPERT NUTRITIONISTS

All EUKANUBA dry diets are proudly made in a state-of-the-art manufacturing plant. The team of pet-loving experts in pet nutrition, microbiology, and food science is dedicated to ensure excellence in every bowl.

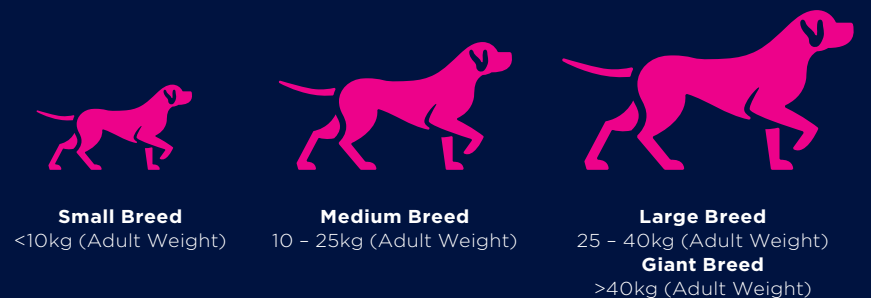

EUKANUBA LIFE STAGE RANGE

SUPPORTS LIFELONG WELLBEING

EUKANUBA takes a tailored approach to nutrition that builds from one life stage to the next. Supporting the nutritional needs of dogs from Puppy through to Adulthood, and later from Mature to Senior. Providing short-term and long-term benefits for a better lifelong impact.

Whether you want to give your new puppy the right start in life or take the best care of your senior dog. EUKANUBA helps your faithful companion reach their potential and support their optimal body condition.

SKU	Puppy	Junior	Adult	Mature	Senior
Small <10kg	1 - 12 Months		1 - 8 Years	8 - 11 Years	+11 Years
Medium 10 - 25kg	1 - 12 Months		1 - 7 Years	7 - 10 Years	+10 Years
Large 25 - 40kg	1 - 12 Months	12 - 18 Months	18 Months - 6 Years	6 - 9 Years	+9 Years
Giant >40kg	1 - 14 Months	14 Months - 2 Years	2 - 5 Years	5 - 8 Years	+8 Years

Growing PUPPY

EUKANUBA'S super-premium blend of ingredients supports your puppy's growth and development. Our tailored nutrition builds from one life stage to the next to supporting optimal body condition for lifelong wellbeing.

EUKANUBA Puppy, Junior, Adult, Mature and Senior diets are recommended by vets and breeders internationally for their proven and visible results.

When choosing your puppy's food, it's important to consider their size.

This is because small breeds develop fast and require high levels of protein and fat to support healthy growth. Large and Giant breed pups must be given a less nutrient dense formula alongside carefully controlled calcium levels. This reduces the stress on their joints and helps prevent issues later in life.

DEVELOP
DHA to help puppies learn and be more trainable

DIGESTION
Prebiotic FOS and Beet Pulp to help support healthy digestion

CALCIUM
To support bone development

DENTAL
Special kibble shape together with unique DentaDefense* to help keep teeth clean and healthy

IMMUNITY
Antioxidant Vitamin E & C to help support immunity

SKIN & COAT
Natural sources of omega 6 & 3 for healthy skin and coat

*Excluding Puppy Large Breed

EUKANUBA LIFE STAGE

Puppy Small Breed

Rich in Fresh Chicken

Composition

Dried chicken and turkey (28% including chicken 17%, a natural source of glucosamine, chondroitin sulphate and taurine), fresh chicken (15%), maize, poultry fat, wheat, fish meal (a natural source of omega-3 fatty acids), rice, barley, dried beet pulp (3.5%), chicken gravy, dried whole egg, minerals (including sodium hexametaphosphate 0.35%), fish oil (a natural source of omega-3 fatty acids), fructooligosaccharides (0.38%, a natural prebiotic), brewer's dried yeast (a natural source of B-vitamins and selenium), mannanoligosaccharides (a natural prebiotic).

* For puppies with an adult weight < 25kg we recommend our food for growing puppies of small and medium breeds, rich in lamb and rice

Developing JUNIOR

EUKANUBA Developing Junior food has been carefully tailored to suit the developmental needs of large and giant breed young dogs.

Our protein and fat levels help your growing puppy transition from each life stage to the next.

Our recipe reduce joint stress during formative years by helping young puppies gain weight gradually throughout their growth. Helping your dog reach it's growth potential without compromising on lifelong health.

DEVELOP
DHA to help puppies learn and be more trainable

DIGESTION
Prebiotic FOS and Beet Pulp to help support healthy digestion

IMMUNITY
Antioxidant Vitamin E & C to help support immunity

CALCIUM
To support bone development

SKIN & COAT
Natural sources of Omega 6 & 3 for healthy skin and coat

DENTAL
Special kibble shape together with unique DentaDefense to help keep teeth clean and healthy

EUKANUBA LIFE STAGE

Thriving MATURE

EUKANUBA uses tailored nutrition to meet the needs of your pet in all 5 life stages. We help your dog to stay fitter and faster as they mature by supporting optimal body condition through weight management.

Switching to our EUKANUBA mature diet can help reduce middle-age spread. Helping your pet age gracefully for a better lifelong impact.

WEIGHT MANAGEMENT
L-carnitine to help maintain an ideal weight

DIGESTION
Tailored fibre blend including FOS and beet pulp to help support healthy digestion

BONES
Glucosamine to help maintain healthy joints and calcium to help maintain strong bones

SKIN & COAT
Natural sources of omega 6 & 3 for healthy skin and coat

IMMUNITY
Antioxidant Vitamin E & C to help support immunity

DENTAL
Special kibble shape together with unique DentaDefense to help keep teeth clean and healthy

EUKANUBA LIFE STAGE

Mature Small Breed

Rich in Fresh Chicken

Composition

RECIPE BENEFITS

High levels of protein (30%) and fat (20%) to support highly active and working dogs for increased endurance

Recommended for pregnant and lactating females

Rich in chicken to help support lean muscles

Omega 3 and 6 to support scenting ability

Natural sources of Omega 6 and 3 for healthy skin and coat

Special kibble shape together with unique DentaDefense to help keep teeth clean and healthy

Your dog's skin and coat play a huge role in the overall health of your pet. That's why our Sensitive Skin recipe limits ingredients that may cause itching and scratching. Our food is hypoallergenic and only uses fish as its single source of protein.

RECIPE BENEFITS

Glucosamine and chondroitin sulphate help support and nourish healthy cartilage in joints

L-Carnitine to facilitates the oxidation of fat

Low energy density - helps maintain a healthy weight which minimises stress on joints

Appropriate level of high-quality animal protein which supports muscle mass and vital organs

Targeted omega-6: omega-3 fatty acid ratio to help nutritionally manage inflammation at the cellular level

Special hexagon kibble shape with unique DentaDefense to keep teeth clean & healthy

EUKANUBA Veterinary Diets Restricted Calorie for dogs is intended for the reduction of excessive body weight.

Our recipe is low in fat but uses high-quality animal protein to reduce caloric intake. To achieve an ideal body weight L-Carnitine is used to facilitate the oxidation of fat. Our carbohydrate blend of barley and oat optimised glucose and insulin response. Glucosamine and chondroitin sulphate support and nourish healthy cartilage.

SUITABLE FOR DOGS WITH:

- ▶ Excessive weight
- ▶ A need of weight maintenance
- ▶ Increased stress on joints due to overweight
